***Whitehall
Science Club’s
11th Annual
Science Night***

Wednesday,

May 6th

from

4:00-6:30 pm

WHAT'S SCIENCE NIGHT ALL ABOUT?

Once again the freshmen class will be hosting the 11th *Annual Science Night*. One of the great opportunities that Science Night provides is it bridges the gap between scientists from the community all the way down to elementary science students. We come together on one night to fulfill an innate human desire to explore and discover some of the most basic laws of science that govern our world.

Throughout the year the 9th grade students have been working on the Independent Research Projects. On Science Night six students will be presenting their projects and have a chance to receive one of the *Whiteball Science Club Community Scholarships*. The overall goals of Science Night are to increase students' interest in the field of science and to inspire students to pursue an education beyond high school.

Air Powered Rocket

Newton Races
Archeological Adventures
Fantastic Foaming Fountain
Fun With Flubber
Easy Ice Cream
Coke & Mentos
Polyurethane Creatures
Hovercraft Rides
Water Bottle Lava Lamps
Magnetic Slime (New)
Fireproof Balloons (New)
Mega Bubble Blowers (New)
Soap Powered Boats (New)
Ghost Bubbles (New)
Rainbow Bottles (New)
Optical Illusions (New)
Anti-Gravity Water (New)

THANK YOU TO THE JUDGES FOR THE RESEARCH PROJECTS

Crush

“THE GRAND FINALE” DEMO SQUAD

**Demo #1 *Burning Benjamin's...or
Washington's***

*We have money to burn...
(Amanda Zimmerman & Petr Kubes)*

Demo #2 *Whoosh Bottle*

Flash Point of Methanol -- (Elijah Anderson)

Demo #3 *Spiraling Flame of Sanitation*

Sanitizer or Hand Warmer (Courtney Sosalla)

Demo #4 *Rainbow Flame Demo*

Salts & Alcohol...What a Show--(Hunter Alitz)

Demo #5 *Grain Silo Explosion*

Dust is Dangerous--(Mitchel Fields)

Demo #6 *Dancing Flames*

*Music & Fire Make an Amazing Combination--
(Amanda Zimmerman & Petr Kubes)*
