All Proceeds will go to the Whitehall School District's Outdoor Learning Center

The Whitehall School District is actively raising funds to build an "Outdoor Learning Center" on our school grounds. Our goal for the outdoor learning center is to provide an environment for students and staff to learn about the wonderful world around us. An outdoor learning center is a place students can engage in daily classroom activities while being free of the constraints of a conventional classroom setting. We are hoping to raise \$5000 to build a structure that is as durable and respectable as our new elementary facility.
